## Career Objective

Computer Science and Engineering graduate with nearly three years of professional experience in software quality assurance, workflow improvement, and cross-functional collaboration. Experienced in investigating complex problems, validating data and processes, supporting colleagues, and improving operational efficiency through technology. Seeking to build a long-term career with Mutual Trust Bank through its Management Trainee programme, combining analytical thinking, communication, adaptability, and a strong commitment to learning across banking functions.

## Academic Qualifications

**BSc in Computer Science and Engineering**, Ahsanullah University of Science and Technology **2023**
CGPA: **3.188/4.00**

**Higher Secondary Certificate (HSC)**, Dhaka College GPA: **5.00/5.00**

**Secondary School Certificate (SSC)**, Ideal School and College GPA: **5.00/5.00**

## Professional Experience

**Therap (BD) Ltd. — Software Engineer, Quality Assurance** Jan 2024 – Present
*Dhaka, Bangladesh*

- Evaluated complex web and mobile business workflows, identified defects and process gaps, and coordinated with developers to verify fixes and maintain accuracy and reliability.
- Initiated and developed **Therap Bulk Data Hub** with AI-assisted development and automation tools, reducing creation time for 100 Case Note records from approximately 10 minutes to 45–60 seconds (approximately **90% less time**).
- Helped make existing automation workflows usable for colleagues through an Electron-based desktop interface, reducing reliance on manual technical execution.
- Took ownership of testing for billing scalability changes, validating larger transaction selections and processing behavior; observed a search-time reduction from **2.13 s to 1.48 s** in a 218-service-line case.
- Shared testing ownership for a face-recognition-based attendance workflow integrated with a web dashboard and demonstrated at Therap Nationals 2026.
- Supported colleagues through training, troubleshooting, documentation, and communication of technical findings; previously tested connected devices and supporting software in the IoT R&D team.

**Gameriv.com — Backend Engineer & Content Writer** Jul 2022 – Apr 2023
*Dhaka, Bangladesh*

- Supported a WordPress-based publication through website-related responsibilities, research, and written content production, strengthening communication and deadline-oriented teamwork.

## Leadership, Communication & Extracurricular Activities

- **Senior Panel Member**, AUST Programming & Innovation Club (2021–2023): Helped organize programming contests, hackathons, Robo Soccer, and industry seminars involving **200+ students**.
- **General Secretary**, Dhaka College Science Club (2017–2018); **Vice President**, Ideal Science and Technology Aiming Research Council (2012–2016).
- **Vice Captain**, AUST CSE Football Tournament runners-up team (Fall 2022); developed teamwork, coordination, and resilience through competitive sport.
- Presented published computer vision research at **PEIS 2023** and **IEEE ICCIT 2023**; placed **3rd** in the Junior Programming Contest at Nasir Group Codeware 2019.

## Relevant Skills

**Business-relevant:** Analytical problem-solving, process improvement, data validation, stakeholder coordination, team collaboration, presentations, technical documentation, learning agility

**Digital & technical:** SQL (Oracle, MySQL, Microsoft SQL Server), API testing, Python, JavaScript, workflow automation, Git/GitHub, WordPress

**Working methods:** Functional and regression testing, investigation and reporting, peer training, research and written communication
